School Evaluation

Strengths

- *The school has established a consistent and collaborative approach to teaching mathematics, ensuring that pupils build their skills step by step as they move through the school.
- *Pupils benefit from the use of practical resources and manipulatives, which help them to understand concepts more deeply and develop independence in their learning.
- *Strong, positive relationships between staff and pupils support a caring and respectful learning environment, where pupils' voices are valued and acted upon.
- *Pupils are encouraged to think for themselves, solve problems, and apply their learning in real-life and cross-curricular activities.
- *Staff continue to develop their skills through collaboration, training, and sharing good practice both within the school and with others beyond the school.
- *The school actively promotes the Welsh language and culture, with pupils growing in confidence using Cymraeg and taking part in cultural events such as the Eisteddfod and Urdd clubs.
- *Pupils experience a wide range of enriching learning opportunities, supported by consistent routines, clear approaches, and a focus on developing essential skills.

SDP Targets 2025 - 2026

- SDP 1 - To refine assessment practices across the whole school to enhance pupil progress
- SDP 2 - To develop and strengthen the use of effective environments in supporting progression and wellbeing
- SDP 3 - To develop and embed Welsh oracy across the whole school
